

Hossam Elkeleny

Data Analyst

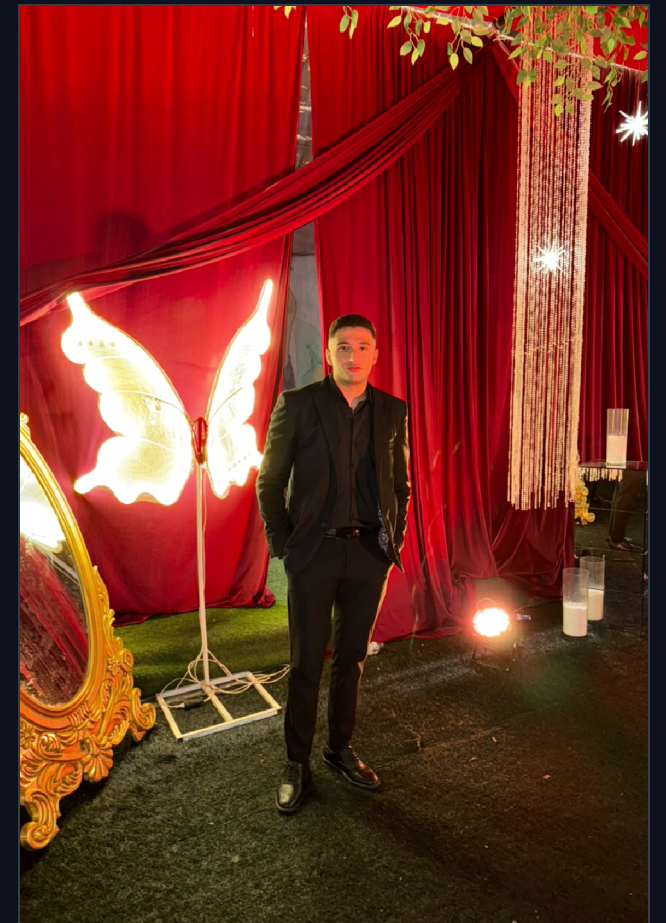

Turning data into clear insights and better *business decisions*.

I help small businesses and e-commerce companies understand their numbers — cleaning raw data, building interactive dashboards, and turning reports into decisions worth acting on.

[View My Projects](#)

[View About Me](#)

[Let's Work Together](#)

I'm a Data Analyst with over a year of hands-on experience turning raw data into insights businesses can actually use.

I specialize in cleaning messy data, transforming it into a usable structure, and building interactive dashboards that show performance clearly — so teams and business owners can make decisions based on facts, not guesswork.

My work spans data cleaning, data transformation, visualization, KPI analysis, and data storytelling, always with a focus on accuracy and clarity over complexity.

Data Analysis Projects

6

Main Data Analysis Tools

Projects

Two Power BI dashboards covering retail sales, regional performance, and customer insights.

Project 01

Retail Sales Performance Dashboard

Power BI | Power Query

An interactive Power BI dashboard built during the Digital Egypt Pioneers Initiative (DEPI) data analytics track, analyzing retail sales performance across cities, categories, and payment methods.

- Monthly sales trends
- Sales by region
- Top customers
- Sales by category
- City analysis
- KPIs & business insights

Full interactive report available on request.

Sales Performance Dashboard

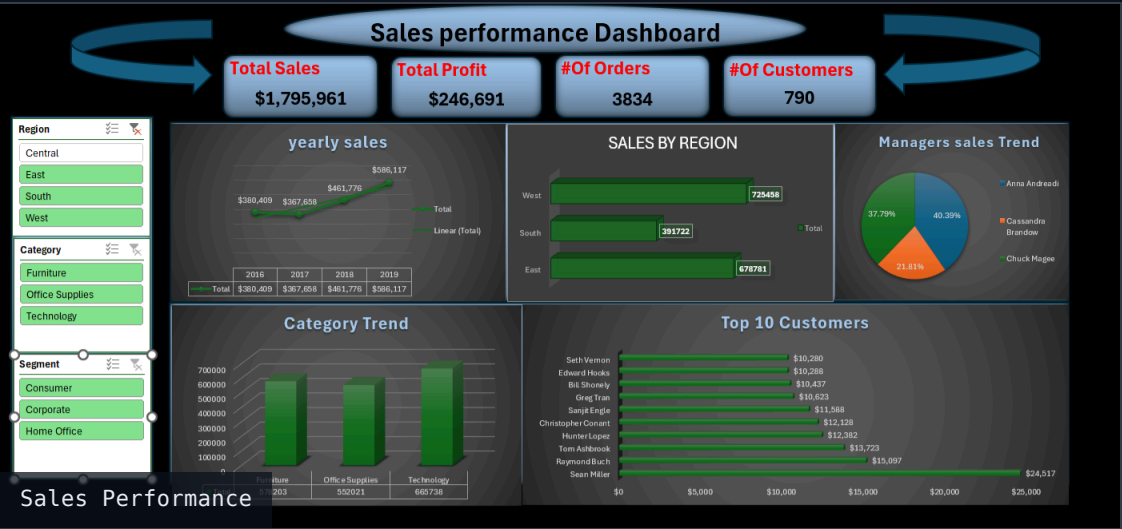

Power BI

Power Query

A dashboard tracking sales performance across regions and customer segments, built to give a quick, clear view of yearly performance and top accounts.

- Yearly sales trends
- Category trend
- KPIs & business insights
- Sales by region
- Top 10 customers

Full interactive report available on request.

Services

Practical data analysis support for small businesses and e-commerce teams.

Packages

Turn your data into actionable insights — pick the level of depth that fits your needs.

Basic

- ✓ Data Cleaning
- ✓ Excel Data Analysis
- ✓ Basic Charts & KPIs
- ✓ Data Formatting

📅 Delivery: 2–3 Days

Standard

- ✓ Advanced Data Cleaning
- ✓ Exploratory Data Analysis
- ✓ Interactive Power BI Dashboard
- ✓ KPI & Trend Analysis

📅 Delivery: 4–5 Days

Recommended

Premium

- ✓ End-to-End Data Analysis
- ✓ Python / Pandas Analysis
- ✓ Advanced Power BI Dashboard
- ✓ Business Insights & Recommendations
- ✓ Presentation-Ready Report

📅 Delivery: 5–7 Days

Education

Faculty of Commerce — English Section

Mansoura University

Egypt

My academic background in Commerce, studied in English, gave me a strong foundation in business fundamentals and analytical thinking — a base I later built on with hands-on data analysis training.

Certificates

Formal training that supports my practical data analysis skills.

IBM SkillsBuild — Data Fundamentals

Completion Certificate

- Data Analytics Concepts
- Data Analysis Process
- Data Cleaning
- Data Visualization
- Communicating Insights
- Databases & Data Tools
- Data Science Concepts
- IBM Watson Studio

Feedback

What people have said after seeing my dashboard work on LinkedIn.
